

CNN-CPTBN Research Meeting I

Wednesday April 6, 2022 [1500 - 1700 hr Eastern Time]

Moderator: Marc Beltempo

Eastern Time

1500 - 1505 Welcome and Introductions

Projects Update Database

1505 - 1510	Respiratory Management of Extremely Preterm Neonates: A Comparative Effective Research Study (RMS)	<i>RMS Screen</i>	Amit Mukerji
1510 - 1515	Utilization of inhaled nitric oxide therapy in preterm infants in Canadian NICUs (iNO)	<i>iNO Screen</i>	Amish Jain
1515 - 1520	Impact of Resource Allocation on Outcomes of Very Preterm Infants in the NICUs (Resource Allocation)	<i>Resource Screen</i>	Marc Beltempo
1520 - 1525	Relative effectiveness and safety of pharmacotherapeutic agents for PDA in preterm infants: A National Comparative Effectiveness Research Project (CANRxPDA)	<i>CANRxPDA Screen</i>	Souvik Mitra
1525 - 1530	Using Antibiotics Wisely - Development of National Neonatal Intensive Care Unit-specific Antimicrobial Stewardship Program (ASP)	<i>ASP Screen</i>	Joseph Ting

New Projects

1530 - 1540	Redefining the hemodynamic significance and treatment threshold treatment for patent ductus arteriosus in preterm infants (RESET-PDA)	<i>New Screen</i>	Dany Weisz
1540 - 1555	Dopamine vs. Norepinephrine for hypotension in very preterm infants with late-onset sepsis: A National Comparative Effectiveness Research (CER) Project.	<i>New Screen</i>	Amish Jain

Projects Update

1555 - 1610	Restricted Family Presence in the NICU during the COVID-19 Pandemic: Understanding impact and co-created response (PRESENCE Study)		Marsha Campbell-Yeo
1610 - 1620	Withholding Enteral feeds Around packed red cell Transfusion to prevent necrotising enterocolitis in preterm neonates (WHEAT International Trial)		Balpreet Singh
1620 - 1630	HiLo Trial		Georg Schmölzer

Research Proposals

1630 - 1645	Post-extubation Non-invasive Respiratory Support Pressure levels in Preterm Neonates: A Prospective Comparative Evaluation Research Study		Amit Mukerji
1645 - 1700	Neonatal VAP and UTI		Joseph Ting
